

For new brochure

Why have we gone to Nazilli?

The first host country in the project was Turkey with the high school “Menderes Anadolu Lisesi” in Nazilli. The focus was on agricultural problems from an economic and sustainable point of view. Our goal for this visit was to get to know the Turkish education system, possible job opportunities in the agricultural sector and to create international connections between the students.

international students working in the school's library

Concerning education and job opportunities we have learned about

- different subjects offered by universities
- temporary stay at a Turkish university
- criteria needed for a permanent stay at a Turkish university
- likely future job opportunities in the future as well as challenges and chances of these
